SKATES, SKATES, SKATES, AT COST.

E. A. BAKER & Co.

INDIANS IN COURT.

A Charge of Indecent Assault.—A Novel Scene in the Court Room.—The Prisoner Acquitted.

Rolling Horse, a Sioux Indian, otherwise known as Joe, appeared to-day before Magistrates Green and Porter on a charge of indecently assaulting a young squaw named Louise. The trial took place in the new court house. Considerable interest was manifested and a motley crowd of Indians were on hand. On entering the court house Joe was discovered behind the bars, utterly oblivious as to his surroundings. At the open window stood his faithful squaw whispering words of comfort and telling him to be brave. He heeded her not. His face betrayed no emotion. Presently Mr. K. P. McKaskill appeared. "Wamble Este," said the prisoner, "have you come to see that I get a square show?"

Mr. McKaskill answered in the affirmative.

"Turn round," said Rolling Horse. Mr. McKaskill complied with the request and Joe stretched his hand through the bars and felt his hip pocket and exclaimed "where's your gun?"

The Magistrates now appeared and Corporal Marshall ordered all who were not directly interested in the trial to leave the court room. The court was declared open, and Mr. W. J. Nelson proceeded with the prosecution, Mr. Austin McDonald acting as sworn interpreter.

Topa, the mother of Louise, testified that she was asleep in her teepee on Sunday night and that she was awakened by her daughter crying out. She sprang up and saw a man running away from the tent. This man she said was the prisoner although she did not see his face. She recognized him by his blanket.

Louise swore that Joe had come into the tent and assaulted her. She did not see his face, nor did she hear him speak but she knew him to be Joe. The interpreter had hard work to make her talk at all and finally had to threaten her with being locked up if she did not answer.

John, an old Indian, was then called and provoked considerable laughter. John swore that he saw Joe go to Topa's teepee and put his hand in under the tent. On being asked how he knew it was Joe he said he knew him by his English clothes. Topa then said something to him in Sioux and he said he knew him by his blanket. The lie was so apparent that the magistrates attached little weight to his evidence. Joe cross-examined him and made him contradict himself several times.

This concluded the prosecution. Joe was about to proceed with his defence when the Magistrates decided that no case had been made out. They discharged the prisoner after warning him not to get himself mixed up in such matters again.

At times during the trial the scene was most laughable. The Indians were all talking at once and it was with difficulty that order was maintained. Mr. McKaskill conducted the defence in an able manner.

Joe's appearance was hailed with delight by the Indians outside and they proceeded to their teepees and at latest accounts are making preparations for a big blow-out.

ROMAN JOTTINGS.

School was opened here March 19th. Miss E. Green takes charge for this term.

On going to his barn last Monday morning Mr. Joe Shepley found one of his horses cast and in a bad condition but by dint of hard work and aid of a friend who happened to be near, the

unfortunate beast was soon relieved by placing in a sling, and we are glad to hear that it is doing well.

On Wednesday evening last a large number of friends met at the residence of Mr. James Campbell as a surprise to welcome him home from his winter's sojourn in Ontario, and after skipping the light fantastic until the wee hours of the morning they finally dispersed all of the same opinion that they spent a very enjoyable night.

A very enjoyable evening was spent at Mr. J. J. Porter's on Good Friday, the programme of the evening being games, recitations and music. Recitations by Mr. J. J. Porter, Mrs. J. J. Porter and Page Porter. Singing by Messrs. Paisley, Bastelo and Carter.

The Rev. Mr. Bunt conducted the Sacramental service here last Sunday.

The new residence of Mr. Wm. Robinson is well under way and he expects, wind, weather and circumstances permitting, to take possession in a few weeks.

Mr. Pascoe has purchased a fine horse from Mr. Joe Bate. Price paid \$125.

Mr. R. Murdock and E. Latham have returned from Prince Albert after spending the winter in the woods, both looking hale and hearty.

We are sorry to lose one of our neighbors in the person of Mr. A. B. Clark, who intends moving to his new homestead north of Moose Jaw. We wish him every success.

The snow in this district has nearly all disappeared and the gophers are fast making their appearance.

Last Wednesday evening a large surprise party met at Mr. E. F. Hopkins. A long programme was provided with the Rev. W. Abbott in the chair. A very interesting speech was given by Mr. Hopkins. Recitations by Mr. J. J. Porter, Mrs. J. J. Porter, Mrs. R. D. P. Green, Miss E. Green and Mr. Paisley. Music by the Glee Party. Songs by Messrs. Bastelo, Carter and Mrs. Carter. As this will probably be the last surprise party of the season they all expressed the opinion that it was the best party they had had. The party broke up about five o'clock.

CARNEL NEWS.

There is some talk of the R. T. of T. organizing a lodge in the near future.

Miss Ida Powell is visiting friends in town.

Mr. Peter Hudson has purchased a mare from G. M. Annable.

Mr. H. Dorrell lost a valuable young cow last week.

The farmers have all got a smile on their face since the thaw.

Sleighting is about all gone.

P. H. would like to know if the trustees are going to engage a lady teacher or not?

Shameful Reception.

LIVERPOOL, March 29.—In addressing the Society for the Relief of Foreigners, the Mayor this evening complained of the expense caused the city by cattlemen from the United States. Almost constantly, he said, these men are being left penniless and friendless in the dock districts, and were saved from starvation and returned to America by the municipality.

W. J. Sullivan, U. S. vice-consul, explained that the cattlemen in question had been deceived usually by their American employers, who induced them to believe that they would receive \$10 wages besides free passage home. After arriving in Liverpool, he said, the men generally found that the ship-owners repudiated the bargain. The consuls were overrun by men who had been deceived thus. Mr. Sullivan added that he hoped steps would be taken in the near future to remedy the abuse.

COMMUNICATION.

A Word to the Farmers.

To the Editor of the Moose Jaw Times, DEAR SIR,—

Permit me through the columns of the TIMES to advise the farmers to bluestone their oats and barley before sowing this spring.

Where there are not badly affected one pound of bluestone to ten (10) bushels is sufficient but if very smutty one (1) pound to five (5) or seven (7) bushels should be used.

In all cases use one and one-half (1½) pails of water to each pound of bluestone and seed should be thoroughly mixed while bluestone is being applied.

Except in two cases of barley which were very smutty, one pound to ten bushels gave good results on the Experimental Farm last year.

Yours very truly
ANDREW MACKAY,
Superintendent.

HIS MAIL IS HEAVY.

Fisheries Inspector Brickwood Gets Letters from all over the Dominion asking for Particulars about Dodd's Kidney Pills Curing him of Chronic Rheumatism.

KINGSTON, April 2.—Enquiry develops the fact that the story of J. H. Brickwood's wonderful cure of his rheumatism by Dodd's Kidney Pills has brought him notoriety. Mr. Brickwood daily receives letters from all quarters of Canada asking further particulars of his cure. He invariably answers that after all other remedies failed, Dodd's Kidney Pills restored him to health. Dodd's was the first kidney remedy in pill form ever offered the public. Its wonderful success in curing all forms of kidney disease, has led to the introduction of numerous cheap and worthless imitations. Purchasers, for their own safety should insist on getting Dodd's Kidney Pills. Sold in large boxes; price, fifty cents per box, six boxes for \$2.50. To be had of all dealers.

The May Delinicator.

The Delinicator for May is called the "College commencement number," and contains three articles especially interesting to students. A Girl's Life and Work at Vassar is the title of the first of a series on the Women's Colleges of the United States; A College Commencement is most attractively described by a graduate of Smith, and there is a fully illustrated paper on Commencement and graduation Gowns Under the head of Employments for Women is a sensible article on Women in Journalism, by Edith Sessions Tupper, and Eleanor Georgan treats the subject of Pantomimic Expression clearly and practically. A further installment of some uses of Crepe and Tissue Papers introduces some pretty articles for decorating a Spring Luncheon Table, the third paper on Wise Living gives some good advice about eating, and the many ways in which daughters can help their mothers is told in the second chapter of Mother and daughter. A Leather Wedding and a Logonachy Party are entertainingly described. Some new designs are given, and in the Tea Table Talks many reasonable topics are discussed. The culture of Fuchsias is the subject of the Floral article, and there are many new designs in Knitting, Crocheting, Netting and Tatting. The subscription price of the Delinicator is \$1.00 a year. Single copies 15 cents. Address orders to the Delinicator Publishing Co. (Ltd.), 33 Richmond Street West, Toronto, Ont.

"Not clinging to some ancient saw,
Not mastered by some modern term,
Not swift nor slow to change; but firm."

FRIDAY, APRIL 6, 1894.

THE BUTTER INDUSTRY.

Canadian farmers who make no money by growing wheat ought to turn their attention to butter-making, an industry that is now engaging the particular attention of Prof. Robertson of the Dominion Experimental Farm. Our farmers ought to take up the butter industry in the same way as they did that of cheese-making. United action and close attention to the requirements of the markets would soon give Canada as good a reputation for butter as she now enjoys for cheese. Australia during the last fiscal year shipped \$5,000,000 worth of butter into England, or about four times as much as Canada sent to the same market. Australia is some twelve thousand miles further from that market than Canada is. It is surely our own fault if we do not get a bigger share of the butter trade of Great Britain. Canada has a great advantage over Australia in regard to distance and transportation facilities. Where we are weak is in the production of a uniformly good article and in concerted action in placing our butter on the market. The proper method of marketing our butter as soon as possible after manufacture, while in its fresh, rosy and most palatable condition, has been too long neglected, and until more attention is given to the art of placing this article in the hands of English consumers before its prime qualities have departed we shall make small headway in our export butter trade. Not only should Canada be in a position to rival Australia in butter-making, but she ought to succeed in taking away some of the profitable trade that has for a long time been monopolized by Denmark, France and Sweden in the English butter market. The equipment of Atlantic steamships with cold storage appliances is a necessity for the full development of the industry. The establishment of the proposed fast Atlantic service, with special facilities for this and similar classes of goods, ought to stimulate the industry in no little degree.

The Newcastle Chronicle, just to hand, states that Great Britain imported during February last 222,033 cwt. of butter, and of this amount Australia sent 43,000 cwt.

THE NEW ENGLISH PREMIER.

Archibald Philip Primrose, Earl of Rosebery, Prime Minister of Great Britain, young, handsome, enjoying vigorous health, enormously rich, and about to marry a royal princess, Maud or "Harry" of Wales, youngest and fairest daughter of the Princess of Wales, may well consider himself, as no doubt he is pretty generally considered, one of the most fortunate men of the day. Indeed he is a veritable hero of romance. "Some twenty years

ago," writes Mr. Labouchere, in *Truth*, of March 8, "two young men were travelling together in Italy. One of them confided to his companion that he had set his heart upon achieving three distinct objects. The first was of a private character—presumably to marry either an heiress or a daughter of the Royal House of England—and need not therefore be disclosed here. It is sufficient to say that it has been accomplished. The second was to become Prime Minister of England, and the last was to win the Derby. That young man was Lord Rosebery; he is now Prime Minister, and it is highly probable that, on June 6 next, he will have attained his third desire in life. If he does, this will do more to secure votes for the party of which he is leader than any political programme."

EDITORIAL NOTES.

Prince Bismarck celebrated the 79th anniversary of his birthday on Sunday, surrounded by thousands of admirers. Congratulatory messages were received from all parts of the world, including Canada.

The London Times and half a dozen other English papers doing good work for Canada should make these Canadian contemporaries that put prejudice before truth and partisanship before patriotism heartily ashamed of their puny efforts to arrest national progress. It is a reflection upon this country when great enterprises undertaken here have to look abroad for mediums of recommendation to the public.

We see that in Calgary a large body of influential citizens met on the 20th inst., at the invitation of Mayor Orr, to confer as to the establishment of a university for the Territories. Committees were appointed to ask the Federal Government to set apart 750,000 acres for university purposes, one-third of the amount for each of the three districts, and to confer with prominent citizens throughout the Territories in aid of the movement.

The Irish Times in an editorial upon the proposed Canadian fast Atlantic mail service, says the development of the undertaking will be watched in Ireland with great vigilance, and, our contemporary adds, "an earnest practical design." Despite some evidence to the contrary, there are a few matters which the population of the Emerald Isle can afford to view in national harmony. Next to their common pride in the patronage of St. Patrick, they are keenly alive to the advantages of the mails being forwarded via Queenstown and Dublin.

It is sad that Cycling Life recently lost a chance of securing an especially nice photo for its "Poem without words" series, and the loss was due to a singular thing. Three real nice charming wheel-women were to have their photos taken together with their handsome faces projecting through a torn newspaper. The photo was taken and made an especially handsome picture, but the photographer had used a Chicago newspaper and directly under the faces of the girls was the line, in large sized De Vinne type, of some "Never-rip" Overalls Company—"Our pants are lined in the seat." The photo will be taken over again.—Canadian Wheelman.

Lord Rosebery has departed from an established custom by choosing as the successor to Mr. Majoribanks, who had to give up his office as Liberal whip upon succession to the peerage, a member who does not belong to the aristocratic class. The new whip is Mr. Thomas E. Ellis, member for Merionethshire, and a junior lord of the treasury. It is said that he is "the son of a Welsh tenant farmer, who three years ago was private secretary to a member of Parliament at \$1,500 annual salary, who is not even a university man, and has none of the conventional graces of manner. He was elected to Parliament simply because of his ability, and is a very poor man, to whom \$10,000, salary of the new office, means a fortune."

SMUT IN WHEAT.

Circular From the Officials of Dominion Experimental Farms.

The heavy losses which have of late years fallen on many farmers in Manitoba and the North-West Territories from depreciation in the value of their wheat from the presence of smut, should be a warning to every settler to adopt the preventive measures which have been thoroughly tested and shown to be efficient on the Dominion Experimental Farms at Brandon, Man., and Indian Head, N. W. T.

The "bunt" or "stinking" smut is the result of a fungous growth which is propagated by very minute spores, visible only with a magnifying glass of high power. These spores are scattered over the wheat by the breaking of the "smut balls" during the process of threshing, and they give to the grain a characteristic and offensive odour. If smutty wheat be sown untreated these spores will vegetate and develop minute thread-like growths, which find their way through the tissues of the young wheat plant, and multiply in the sap. Later in the season a proportion of the kernels in the head will be found to have their normal contents entirely consumed, to have become unnaturally swollen and the interior filled with a black mass of smut spores. These altered and swollen kernels are commonly known as "smut balls." Full particulars of the life history of this species of smut will be found in Bulletin No. 3 of the Experimental Farm series, prepared by Mr. Jas. Fletcher, Entomologist and Botanist.

REMEDY.

Dissolve one pound of bluestone (Copper Sulphate) in a pailful and a half of water (about three gallons) and sprinkle the solution on ten bushels of seed wheat, previously spread in a tight wagon box, or on a clear floor space in barn or house, keeping the grain constantly stirred while the solution is being applied, and mixing the whole thoroughly so that every kernel of the wheat may be wetted. In a few hours the seed will be in good condition to sow with the drill. A good plan is to apply the treatment in the evening and sow the grain the following morning. If the water be used warm and the lumps of bluestone be broken, the solution may be made in a few minutes. As the solution of bluestone lessens in some degree the germinating power of wheat, and more so when it remains long in contact with it, the safe plan is to treat the seed but a short time before sowing.

In the tests which have been carried on with this remedy for the past three years at the Experimental Farms at Brandon and Indian Head, the worst smutted samples procurable have been selected for sowing, and the results have shown, by comparing the crop from the treated with that from the untreated grain, that this remedy is thoroughly efficient. It is also easy of application, and its cost is trifling; usually about one cent per bushel of seed.

It has been often observed that a smutty crop will sometimes result when good clean seed has been sown. This is believed to arise from smut spores in the soil coming in contact with the grain when germinating. As millions of these spores are spread in all directions by wind during the period of threshing and carried long distances, there are doubtless large numbers of them in the soil in all the wheat growing districts of the country. Hence it is much safer to treat all seed before sowing, whether it is perceptibly smutty or not, as the coating of bluestone on the treated grain will protect the seed from attack by spores in the soil.

Having thoroughly satisfied ourselves of the efficacy and reliability of this remedy, and of the importance of its general use, we would strongly recommend that all seed during the coming season be treated in accordance with the directions here given, believing that every settler who acts on this advice will realize an increased crop, which will bring a higher price, and he will also assist in raising the standard of quality of the wheat grown in Manitoba and the North-West Territories to one of uniform excellence.

WM. SAUNDERS,

Director Experimental Farms, Ottawa.

OTTAWA, March 31.—The old tariff on tea provided 10 per cent. duty on that article when imported from or through the United States. The new tariff provides that tea, when not imported direct from the country of production, shall pay ten per cent. Of course, this also affects Great Britain, as out of 17 million pounds imported last year, seven million came from Great Britain. It is said here that wholesale tea men are protesting.

CARD.

I desire to inform the public that the almost indiscriminate distribution of Lumber and building material from my yard, which has taken place since Oct. 1888, came to an end on 1st of JANUARY, 1894, owing to circumstances not wholly within your control or mine.

In future a full stock of the best will be kept, and sold for CASH and CASH ONLY, except to Builders and Contractors, who can arrange for short credit at reasonable rates.

All parties who in the past agreed to pay by monthly instalments must in future keep up their payments or deal with my Solicitor.

Thanking past customers for their confidence and support, I am, gentlemen, your obedient servant,

H. McDougall

FRIDAY, APRIL 6, 1894—No. 12

LOCAL AND GENERAL NEWS.

Miss Russell, of Portal, is in town.

Mrs. Hyslop arrived home on Wednesday morning.

A. W. Wright, of North Portal, was in town yesterday.

Mr. C. D. Fisher paid Regina a flying visit on Wednesday.

Court will be opened by Judge Richardson on the 10th inst.

Mrs. E. F. Burpee arrived from Regina on Sunday morning.

Mr. William Grayson's law office is undergoing extensive renovations.

Mr. J. Lindsay, of the Massey Harris Company, was in town on Thursday.

Try M. J. MacLeod for men's, boys' and children's ready made clothing (ADVT.)

Jan. I. Christie, brother of Mrs. J. E. Annable, arrived from the east this week.

A. V. Richards is making arrangements to build a private residence on High St.

Mrs. and Miss Smith left for Regina on Wednesday to visit friends in the capital.

Mr. William Grayson has sold his house and lot on Main St. to Mr. John Munns.

Itch on human and horses and all animals cured in 30 minutes by Woolford's Sanitary Lotion. This never fails. Sold by W. W. Bole.

D. Smith, of the Public Works Department, was in town on Thursday arranging for the opening of the court house.

WANTED.—A good dining room girl. Wages \$15 per month. Address, Wm. & Blake, Portal House, North Portal.

A special meeting of the L. O. F. will be held in Russell Hall on Monday night. All members are requested to be present.

Andy Porter has sold out his interest in the water business to Wm. McDonald and intends leaving for the west in about two weeks.

For your boots and shoes go to M. J. MacLeod's. His stock is complete in all kinds and is offering some wonderful big values. (ADVT.)

Corporal Doyle and Constables Hocking, Aspinall, Bayley and Priskick, of the N. W. M. Police, arrived from Manitoba on the 5th, via the Soo line, proceeding to Regina the same day.

The members of the R. T. of T. had a very pleasant time on Wednesday evening last, when Rev. E. B. Stacey gave a report of the Dominion Council meeting held at Hamilton.

See Austin McDonald before you start house cleaning. Kalsomining, paper hanging, painting and room decorating a specialty. The only one who has the improved Germ Killer to wash walls with.

The arrival of English farmers of means in Canada to settle is a good sign. They realize that, owing to climate and position, Canada is bound to supply the outside world with the choicest products of the farm.

By fashion plates received at this office, which we always study closely, the two story Elizabethan frill is about to come in vogue. It looks very elegant when adorning a lady's shoulders, but we cannot see how a fellow is going to like a girl without getting it in the neck.

A meeting was held in the TIMES office on Saturday evening to organize a Polo Club when the following officers were elected:—J. H. Ross, Patron; C. A. Gass, Honorary President; A. H. Hecock, President; Dr. Turnbull, Vice President; C. A. W. Stunt, Sec'y. Treas. Managing Committee: Messrs. Gresham, Lang, McCaskill, Fisher, Rea, Ball, and Sinington.

Farms to rent and for sale near Moose Jaw. To rent on shares if desired, 100 to 200 acres under cultivation, house, granary, water, implements. Must be rented at once. Also desirable town lots in any part of Moose Jaw on reasonable terms. Also lots with stone foundation and double dwelling house for sale. Apply to SEYMOUR GREEN. 42c

C. P. R. Appointments.

Several appointments have taken place recently in railway circles. Those of the telegraph department, has been promoted to the position of baggage man on the Pasqua section. E. W. Spence has been appointed agent at Estevan. Agent Hillier has been removed from Virden to Calgary.

Epworth League Meeting.

At the regular business meeting of the Epworth League of Christian Endeavor held in the Methodist church on Monday evening last the following officers were elected for the ensuing term: John Colling, president; Miss Grayson, vice president; J. A. McDonald, Secretary; H. Neeland, Treas.; Miss Smith, Treasurer; Mrs. J. Cline, Organist; Chairmen of Committees: J. Spicer, Prayer meeting; G. Jones, Look out; Mrs. G. M. Annable, Temperance; Mrs. Neeland, Sick; Miss M. Winn, Flower; Wm. McDonald, Social.

Every Man His Own Ploughman.

Speaking at a Farmers' Convention in Kansas lately a delegate said:—It seems to me that the man that did not believe in tilling the soil in a dry time was a little mistaken. Last year I ploughed a piece of ground after harvest, and then ran over it with a harrow and followed that again with a disc harrow. We had no rain, but from that land I got 27½ bushels of wheat to the acre. Beside the field was another that made me only 2½ bushels to the acre, and there was no reason in the world for the difference in yield except the way I handled the ground. Consequently I say that following ploughing with the harrow puts the ground in shape to hold the moisture and it will tell the following season.

Ladies' Guild Bazaar.

The Ladies Guild Bazaar in connection with St. John the Baptist's Church was held in the town hall last Tuesday and from beginning to end proved a grand success. The hall was opened at 2 p. m. and from that time was crowded with people until it closed at 10 p. m. The stalls of Fancy Work etc., were presided over by Misses Smith, Keltie and Ostrander in a most able manner, very few visitors being able to withstand the wiles of the fair attendants. The Candy, Fruit and Flower stalls, tastefully decorated were under the management of Miss Stevenson and Miss Bessie Ostrander, and attracted large numbers of gentlemen during the evening. The Art Gallery, conducted by Mr. F. A. Miller, proved very popular and was a source of much amusement to those who visited it. The chief feature of the Bazaar, however, was the supper, the tables under the supervision of Mrs. Robinson, Mrs. Stevenson, Mrs. Birbeck and Miss Winnie Ostrander, being literally covered with a profusion of delicacies, and, in spite of the large number of guests, there was still some to spare at the close of the feast. By the kindness of Mr. McCarter a piano was loaned to the Guild and during the evening selections of music were rendered by Mrs. Kent, Mrs. Jefford and Miss Ostrander. The ladies of the Guild are to be congratulated on such a successful termination to their work, the more so as the proceeds are to be devoted to wards paying off the debts of the church.

The Weather.

Prof. Foster's last weather bulletin gave forecasts of a storm wave to cross the continent from March 30th to April 3, and from April 4 to 8. The next will reach the Pacific coast about April 9, cross the western mountains by close of April 10, the great central valleys from April 11 to 13, and the eastern states about April 14th. This will be the seventh and last of the predicted severe storms to occur from March 7th to April 14, but it will not end the dangerous storms of 1894. The warm wave will cross the western mountains about April 9, the great central valleys about April 11 and the eastern states about April 13. The cool wave will cross the western mountains about April 12, the great central valleys about April 14, and the eastern states about April 16.

Coxey's Army of the Commonwealth.

Populist Coxey's Army of the Commonwealth, which set out from Massillon, Ohio on Sunday to march to Washington to make certain demands on the Administration, met with cold comfort on the first day and camped in the snow. But on Tuesday it fared on fresh eggs, hot cakes and coffee, the contributions of a sympathetic country people. Such luck is so wonderful that the tramps who have tailed on to the procession live in hope of game pie and cliquot before they get to Washington. Coxey's army is increasing every day, the recruits being respectable artisans and farmers with Populist ideas of making Wall street and plutocratic government tremble. The army is now about invading Pennsylvania and the situation is considered serious. This is the age of fake, and America is its home.

General Booth's Visit to the North-West.

Canadian Commander Booth, of the Salvation Army, writing from Toronto, says: "The Northwest changes, together with the arrangements for the general's coming have decided me to take a flying visit to the coast. Brigadier Holland will accompany me. We shall leave on Friday night, April 6th, after the holiness meeting and run straight through to Nanaimo without breaking the journey. It will be possible by high pressure work to do public meetings at Nanaimo, Victoria, New Westminster, and a Sunday at Vancouver, at all which places we shall introduce the new D. O. and his wife. We shall also inspect the halls, take in the lay of the cities, and fix up the programme on the spot for the general's visit. We shall then run back to Winnipeg, where a great meeting to introduce the new provincial secretary will be held, and officer's councils addressed, the general's arrangements being also fixed. But we shall do more. I don't propose to lose the chance of seeing my comrades, if it is only for a two minutes' address. On the return journey, therefore, meetings are to be arranged at the stations where we have come all along the line of route. The officers and corps, and anyone else feeling disposed, will come down to the station and await the arrival of the train. Immediately she stands I shall do my best to say something that may prove helpful, or at any rate to show my love and regard for our western warriors. At some of the places quite a lengthy and imposing gathering can be convened. It will be a line of salvation 3,000 miles long, finishing up at Toronto with a public reception."

Relief in Six Hours.—Distressing Kidney and Bladder diseases relieved in six hours by the "NEW GREAT SURE & SWEET KIDNEY CURE." This new remedy is a great surprise and delight to physicians on account of its exceeding promptness in relieving pain in the bladder, kidneys, back and every part of the urinary passages in male or female. It relieves retention of water and pain passing it almost immediately. If you want quick relief and cure this is your remedy. Sold by W. W. Bole.

DRINK and the Death Rate.

The British Medical Association appointed a committee to make enquiries, in order to ascertain the average age of the different categories of drinkers, that is to say, those who refrain completely from alcoholic drink, those who indulge more or less in moderation, and those who drink to excess. This committee has handed in its report. Its conclusions are drawn from 4234 deaths, which are divided into five categories of individuals, with the average of age attained by each:—

Total Abstainers.	51 yrs. 22 days.
Careless drinkers.	59 " 67 "
Free drinkers.	57 " 59 "
Habitually temperate drinkers.	63 " 13 "
Decidedly intemperate drinkers.	43 " 3 "

NOTICE.

THE following is a summary of the Regulations with respect to the manner of recording claims for MINERAL LANDS other than Coal Lands, and the condition governing the purchase of the same.

Any person may explore vacant Dominion Lands not appropriated or reserved by Government for other purposes, and may search therein, either by surface or subterranean prospecting, for mineral deposits, with a view to obtaining a mining location, for the same, but no mining location shall be granted until actual discovery has been made of the vein, lode, or deposit of mineral or metal within the limits of the location of claim.

A location for mining, except for Iron or Petroleum, shall not be more than 1,500 feet in length, nor more than 600 feet in breadth. A location for mining Iron or Petroleum shall not exceed 160 acres in area.

On discovering a mineral deposit any person may obtain a mining location, upon making out his location on the ground in accordance with the regulations on that behalf, and filing with the Agent of the Dominion Land for the district, within sixty days from discovery, an affidavit in form prescribed by Mining Regulations, and paying at the same time an office fee of five dollars, which will entitle the person so recording his claim to enter into possession of the location applied for.

At any time before the expiration of five years from the date of recording his claim, the claimant may, upon filing with the Local Agent that he has expended \$500 in actual mining operations on the claim, by paying to the Local Agent therefor \$5 per acre, cash, and a further sum of fifty dollars to cover the cost of survey, obtain a patent for said claim, as provided in the said Mining Regulations.

Copies of the Regulations may be obtained upon application to the Department of the Interior.

A. M. BURGESS, Deputy of the Minister of the Interior. Department of the Interior, Ottawa, July 1890. 3c

Homestead Regulations.

All even-numbered sections of Dominion Lands in Manitoba or the North-West Territories, except 8 and 36, which have been homesteaded, reserved to provide wood lots for settlers, or other purposes, may be homesteaded by any person who is sole head of a family, or male over eighteen years of age, to the extent of one quarter section of 160 acres, more or less.

ENTRY.

Entry may be made personally at the local land office in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, or the Commissioner of Dominion Lands, Winnipeg, receive authority for some one to make entry for him. A fee of \$10 is charged for an ordinary homestead entry; but for lands which have been occupied an additional fee of \$10 is chargeable to meet inspection and cancellation expenses.

HOMESTEAD DUTIES.

Under the present law homestead duties may be performed in three ways, and on making application for entry the settler must declare under which of the following conditions he elects to hold his land:—

1. Three years' cultivation and residence during which period the settler may not be absent for more than six months in any one year without forfeiting the entry.

2. Residence for two years and nine months anywhere within two miles of the homestead quarter section, and afterwards actual residence in a habitable house upon the homestead for three months next prior to application for patent. Under this system 10 acres must be broken the first year after entry, 15 additional in the second year, and 15 in the third year; 10 acres to be in crop the second year and 25 acres the third year.

3. The five years' system under which a settler may reside anywhere for the first two years (but must perfect his entry by commencing cultivation within six months after the date thereof), breaking five acres the first year, cropping those 5 acres and breaking 10 in the second year, and also building a habitable house before the end of the second year. The settler must commence actual residence on the homestead at the expiration of two years from the date of entry, and thereafter reside upon and cultivate his homestead for at least six months in each of the three next succeeding years.

APPLICATION FOR PATENT

may be made before the local agent, or any homestead inspector. Before making application for Patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands his intention to do so. When, for convenience of the settler, application for patent is made before a homestead inspector, a fee of \$5 is chargeable.

SECOND HOMESTEAD

may be taken by anyone who has received a homestead patent or a certificate of recommendation countersigned by the Commissioner of Dominion Lands upon application for patent made by him, or had earned title to his first homestead on, or prior to the second day of June, 1890.

INFORMATION.

Full information respecting the natural timber, coal or mineral laws, and copies of these Regulations, as well as those respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Dominion Lands, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the North-West Territories.
